Apple Education Licensing Program – Software Licensing and Maintenance

Apple Education Licensing Program (AELP) is designed to make Apple software updates simple and convenient, with annual payments to keep costs consistent year after year. AELP offers products that combine software licensing with software maintenance for the institution to cover institutionally-owned or institutionally-leased computers, and, optionally, for higher education institutions to cover enrolled students. Education institutions may also choose to include faculty- and staff-owned computers in their institution installed base so that faculty and staff can work at home with up-to-date software.

Licenses are sold in bundles

AELP is sold in bundles of licenses. Purchase the mix of bundles required to cover your installed base of Mac computers.

For example: To cover an installed base of 143 computers with Aperture, purchase the following quantities of license bundles:

(1) 100-license bundle and (2) 25-license bundles, for a total of 150 licenses.

What is "installed base"?

An institution's "installed base" is defined as 100% of all institution-owned Mac computers, purchased or leased, that need to have the software installed. Optionally, the institution may also include faculty- and staff-owned computers in the institution's installed base. For higher education student licensing, the installed base is defined as all student-owned Mac computers that need the software installed at any time during their enrollment at the institution.

NOTE: For each AELP software product, an institution may purchase a single AELP agreement that covers the entire institution. Alternatively, AELP agreements may be purchased by department, limited to a single AELP agreement for each AELP software product purchased by that department.

Purchase requirements:

First year enrollment

First year enrollment for License and Maintenance products requires the purchase of First Year Enrollment bundles that include:

(1) annual license fee, (1) one-time enrollment fee for the first year (equal to 10% of the annual license fee) and content redemption codes.

NOTE: Each school, school district, college or university, is required to purchase a separate First Year Enrollment bundle for each first-time purchase of a License and Maintenance product.

Renewals and Late Fees

To renew a License and Maintenance product in subsequent years, within the term of the agreement, customers will purchase only the annual license fee. Renewing after an agreement has lapsed for more than one month will require the payment of Late Fees equal to 1/12th of the annual license fee for each month lapsed (for a maximum of 12 months of late fees), plus the purchase of a new 12-month license fee.

Each product may have additional purchase requirements, such as minimum quantities, or a requirement to cover a specific portion of the installed base of eligible end users. Please review each product for additional purchase requirements (below) before submitting an order.
