

iPhone Apps for Business

Documents To Go Premium

Work with important business documents directly on your iPhone with apps like Documents To Go Premium. Create and edit Microsoft Word, Excel, and PowerPoint files, view PDF and iWork files, and send Microsoft Exchange email and attachments. Includes a desktop app (Win/Mac) for two-way file transfers and synchronization via Wi-Fi.

IBM Lotus Notes Traveler Companion

View IBM Lotus Domino-encrypted email on your iPhone. Decrypted mail is wiped upon exit to ensure the security of sensitive data. For Lotus Notes Traveler users.

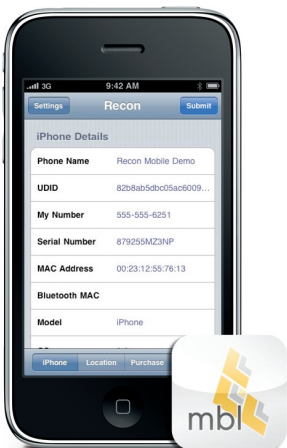

Requires server integration.

Cymphonix Mobile IT

Access your Cymphonix Network Composer and troubleshoot Internet traffic issues from anywhere. Check for viruses and spyware, monitor bandwidth, email, and databases, and get real-time reports.

Requires server integration.

Recon Mobile Mobile IT

Add iPhone inventory records to your company's JAMF Software Server (JSS) to manage contract and license information. Upload configuration profiles and easily configure multiple iPhones.

Requires server integration.

SmartNotes Organization

Organize and combine notes, tasks, photos, and voice recordings on your iPhone. Move notes to folders, prioritize by dragging with a fingertip, add contacts, and assign notes to projects.
