

Table of Contents

	Getting Started	xiii
	The Methodology	xiii
	Final Cut Express Book Files	xiv
	Reconnecting Media	xv
	Loading Software	xvi
	About the Apple Pro Training Series	xvi
	System Requirements	xvii
	Resources	xvii
Lesson 1	Covering the Basics	1
	Working with Finder Windows	2
	Working with the Dock	9
	Adding Final Cut Express to the Dock	12
	Lesson Review	14
Lesson 2	Editing Video	17
	Preparing the Lesson	18
	Working with Video Formats	18
	Working with QuickTime	24
	Shooting Terminology	26
	Understanding Nonlinear Editing	28
	Lesson Review	30
Lesson 3	Working with a Project	33
	Launching Final Cut Express	34
	The Final Cut Express Interface	35
	Menus, Shortcuts, and the Mouse	41

	Working with Projects in the Browser	45
	Changing Window Layout	50
	Working with Bins.	51
	Quitting and Hiding Final Cut Express	57
	Lesson Review	58
Lesson 4	Working in the Timeline.	61
	Preparing the Project	62
	The Timeline and the Canvas	62
	Playing a Sequence in the Timeline	63
	Working with Timeline Tracks.	69
	Playing the Sequence from the Canvas	79
	Saving and Quitting	81
	Lesson Review	82
Lesson 5	Working in the Viewer	87
	Opening Your Project File	88
	Preparing the Project	88
	Viewing Clips.	89
	Marking Clips	94
	Viewing Edit Points.	106
	Saving and Quitting	109
	Lesson Review	110
Lesson 6	Making Edits	113
	Preparing the Project	114
	Working with Sequences.	115
	Making Overwrite Edits	118
	Backing Up Sequences	125
	Inserting Clips	126
	Adding Music.	130
	Saving and Quitting	132
	Lesson Review	132

Lesson 7	Editing to the Timeline	135
	Preparing the Project	136
	Manipulating Clips in the Timeline	137
	Drag-and-Drop Editing Basics	150
	Dragging to the Timeline	155
	Saving and Quitting	161
	Lesson Review	161
Lesson 8	Other Editing Options	165
	Preparing the Project	166
	Building a Sound Track	167
	Marking in the Timeline	169
	Replacing Edits	177
	Deleting Clips and Gaps	183
	Storyboard Editing	188
	Saving and Quitting	197
	Lesson Review	198
Lesson 9	Trimming an Edit Point	201
	Preparing the Project	202
	Trimming	203
	Dragging Edit Points	204
	Rippling Edits	209
	Extending an Edit	214
	Trimming in the Viewer	216
	Lesson Review	220
Lesson 10	Fine-Tuning Edit Points	223
	Preparing the Project	224
	Trimming Two Edit Points	224
	Slipping Clip Content	225
	Rolling Edit Points	232
	Sliding Clips	236
	Dragging to Reposition a Clip	240
	Saving and Quitting	242
	Lesson Review	243

Lesson 11	Customizing Your Project	247
	Preparing the Project	248
	Organizing Browser Information	248
	Saving and Recalling Window Layouts	257
	Using Button Bars	260
	Working with Master Clips	263
	Working with Subclips	266
	Working with Markers	271
	Lesson Review	278
Lesson 12	Capturing Digital Video	281
	Preparing the Project	282
	Connecting Sources for Capture	284
	Previewing and Marking Your Source	285
	Logging Your Clips	291
	Capturing Options	299
	Choosing Preferences and System Settings	303
	Transferring AVCHD Footage	310
	Saving and Quitting	312
	Lesson Review	312
Lesson 13	Working with Audio	315
	Preparing the Project	316
	Hearing, Seeing, and Selecting Audio	316
	Adjusting Audio in the Timeline	326
	Adjusting Audio in the Viewer	337
	Making an Audio-Only Edit	342
	Using the Voice Over Tool	346
	Lesson Review	351
Lesson 14	Applying Audio and Video Transitions	355
	Preparing the Project	356
	Understanding Transitions	356

	Applying Audio Transitions	357
	Applying Video Transitions	366
	Using the Transition Editor	374
	Working with Wipe Transitions.	378
	Rendering Transitions.	383
	Applying Other Video Transitions.	389
	Saving a Favorite Transition.	391
	Advanced Editing Techniques	394
	More Info	396
	Lesson Review	396
Lesson 15	Adding Titles and Other Items.	399
	Preparing the Project	400
	Working with Video Generators	401
	Creating Text Edits	406
	Adding a Title over a Background.	412
	Adding a Lower Third.	415
	Outlining Text	419
	Creating a Credit Roll.	422
	Lesson Review	428
Lesson 16	Finishing Your Project.	431
	Preparing the Project	432
	Importing and Connecting Footage	432
	Adding Finishing Touches	441
	Exporting Sequences and Clips	446
	Outputting to Tape	456
	Recapturing a Project	462
	Importing an iMovie Project	464
	Lesson Review	466
	Index	469

Bonus Lessons on the Final Cut Express 4 DVD

Appendix A Advanced Trimming DVD-1
 Asymmetrical Trimming. DVD-1
 Using the Trim Edit Window. DVD-4

Appendix B Working with Multiple-Tracks. DVD-11
 Preparing the Project DVD-12
 Using Multiple Audio Tracks DVD-13
 Editing with Keyframes DVD-25
 Using Multiple Video Tracks DVD-34

Appendix C Creating Motion Effects DVD-43
 Preparing the Project DVD-44
 Modifying Clip Speed. DVD-44
 Adjusting Views. DVD-54
 Changing Motion Properties DVD-63
 Copying and Saving Motion Attributes DVD-70
 Setting Motion Keyframes DVD-74

Appendix D Working with Filters DVD-79
 Preparing the Project DVD-80
 Understanding Filters DVD-80
 Applying Video Filters DVD-82
 Removing, Sharing, and Saving Filters DVD-92
 Applying Audio Filters DVD-102
 Applying Corrective Filters. DVD-104
 Animating Filter Parameters DVD-110
 Compositing Clips Using Filters DVD-112

Appendix E Advanced Titling DVD-117

 Adding Motion Effects to Text DVD-118

 Working with Mattes and Shapes DVD-123

 Using Title 3D DVD-128

Appendix F Introduction to LiveType DVD-131

 Using the LiveType Interface DVD-132

 Building a LiveType Title DVD-137

 Animating Titles DVD-142

 Using LiveFonts DVD-146

 Creating Effects from Scratch DVD-147

 Adding Multiple Effects DVD-150

 Adding Textures DVD-152

 Importing a LiveType Project into
 Final Cut Express DVD-154
