

Table of Contents

Lesson 1	Getting Started	1
	The Methodology	2
	The CD Files	4
	System Requirements	5
	Certification	6
	About the Apple Training Series	6
Lesson 2	Installing and Configuring Mac OS X Server	9
	Installing Mac OS X Server	10
	Configuring Mac OS X	11
	Mac OS X Server Requirements	13
	Planning Your Mac OS X Server Deployment	15
	Installing Mac OS X Server	17
	Initial Mac OS X Server Configuration	22
	Tools	38
	Troubleshooting	49
	What You've Learned	49
	Review Quiz	51
Lesson 3	Using Network Services	53
	Understanding the Different Servers	54
	Dynamic Host Configuration Protocol	54
	Domain Name System	75
	Software Update Server	96
	What You've Learned	98
	Review Quiz	100

Lesson 4	Setting Up Gateway Services	103
	Protecting Your Network	104
	Gateway Setup Assistant	105
	Firewalls	114
	Network Address Translation	124
	Virtual Private Networking	129
	What You've Learned	133
	Review Quiz	134
Lesson 5	Authenticating and Authorizing Accounts	137
	Managing Server Access	138
	Creating and Administering User and Administrator Server Accounts	138
	Working With Group Accounts in Workgroup Manager . . .	151
	Controlling Access Through Server Accounts	161
	Setting ACLs With Workgroup Manager	168
	What You've Learned	198
	Review Quiz	199
Lesson 6	Using Open Directory	201
	Directory Services Concepts	202
	What Is Open Directory?	202
	Overview of Open Directory Components	203
	Configuring Open Directory	204
	Network Users	212
	Delivery of LDAP Server Information Over DHCP	216
	Configuring an Open Directory Replica	223
	Authentication Methods on Mac OS X Server	225
	Backing Up Open Directory Files	237
	Troubleshooting	240
	What You've Learned	243
	Review Quiz	245
Lesson 7	Understanding Print Service	247
	Print Service Overview	248
	Configuring Print Service	249

	Configuring Client Computers	258
	Managing Print Service	264
	Monitoring Print Service	266
	What You've Learned	271
	Review Quiz	273
Lesson 8	Using File Services	275
	Challenges of File Sharing	276
	Different Protocols for Different Clients	276
	Planning for File Services	278
	Apple File Service	282
	Windows File Service	306
	NFS Share Point Access	320
	FTP File Service	333
	Troubleshooting File Services	345
	What You've Learned	348
	Review Quiz	350
Lesson 9	Managing Accounts	353
	Concepts and Tools	354
	Managing User, Group, and Computer List Accounts	357
	Managing Preferences	368
	Managing Network Browsing	414
	Managing Mobile User Accounts	425
	Troubleshooting	433
	What You've Learned	434
	Review Quiz	435
Lesson 10	Implementing Deployment Solutions	439
	Deployment Issues	440
	Managing Computers With NetBoot	441
	Creating and Delivering Custom Packages	457
	Deploying and Updating With Apple Remote Desktop Admin	463
	Creating Custom Packages	465
	What You've Learned	469
	Review Quiz	470

Appendix A	Introduction to Apple Remote Desktop	473
	What Is Apple Remote Desktop?	474
	Installation and Configuration	475
	Apple Remote Desktop Capabilities	483
	Getting the Best Performance	495
	Security	496
	What You've Learned	498
	Review Quiz	500
Appendix B	Enterprise Solutions	503
	iChat Server	504
	QuickTime Streaming Server	505
	Mail Services	509
	Web Services	510
	Xgrid	511
	Xgrid Admin	513
	Xsan	516
	SANs Overview	518
	What You've Learned	519
	Review Quiz	521
Appendix C	Additional Command-Line Interface Commands .	523
	Finding Files Using locate and find	524
	Managing Processes From the Command Line	525
	Monitoring System Usage	527
	Managing Disks and Volumes	528
	Working With the Command Line and the GUI	528
	Searching Text Files Using pipe and grep	530
	Additional Shell Filename Wildcards	531
	Additional Mac OS X-Specific Commands	532
	What You've Learned	532
	Review Quiz	533
	Index	534
